CABERNET FRANC IDENTITY

AT THE HEART OF THE CLAY PLATEAU

Next to Château Cheval Blanc, Château Figeac and with L'Évangile just behind it, Château Jean Faure – 18 hectares in a single block – stands among the mythical terroirs of Saint-Émilion.

65% CABERNET FRANC

A historic majority of 65% Cabernet Franc, rare in Saint-Émilion, grants the estate both identity and resilience in the face of climate change. This singular variety draws extraordinary energy from the clay soils of our terroir.

CERTIFIED ORGANIC IN 2017 AND BIODY- NAMIC IN 2023

Our cultural practices grounded on observation & respect for nature provide great resilience to Jean Faure's vines.

PATIENCE IS REWARDED

A mild winter led to early budburst, but severe April frosts caused a 50% crop loss.

From May to July, record rainfall tested the vineyard, but our experience in organic and biodynamic viticulture helped manage the pressure.

Summer remained cool, delaying veraison until late August for the Cabernet Francs, marking a shift to a late vintage.

Dry weather from late August to September advanced ripening. By mid-September, grapes showed fresh, crisp fruit aromas.

2021 rewarded those who had been patient.

Merlot harvest began on September 29. Sunny and dry conditions into October allowed us to wait until mid-month for our Cabernet Francs, which, with their balance and aromatic finesse, had already proven to be the big winners of this vintage.
