## CABERNET FRANC IDENTITY

### AT THE HEART OF THE CLAY PLATEAU

Next to Château Cheval Blanc, Château Figeac and with L'Évangile just behind it, Château Jean Faure – 18 hectares in a single block – stands among the mythical terroirs of Saint-Émilion.

### 65% CABERNET FRANC

A historic majority of 65% Cabernet Franc, rare in Saint-Émilion, grants the estate both identity and resilience in the face of climate change. This singular variety draws extraordinary energy from the clay soils of our terroir.

### CERTIFIED ORGANIC IN 2017 AND BIODYNAMIC IN 2023

Our cultural practices grounded on observation & respect for nature provide great resilience to Jean Faure's vines.

## A VINTAGE OF HARMONY

The wet and cold winter helped build reserves, allowing the vine to start 2022 in good condition.

Budbreak was even at the end of March. The early April frost had only a limited impact. Flowering on May 18 was quick and uniform; at fruit set, the berries were small and rich in polyphenols. From May onward, heat and drought prevailed, but a few August storms allowed perfect ripening despite the heatwave.

Harvested between September 6 and October 1, our grapes entered the new cellar, where they delivered aromatic, vibrant, and balanced wines. The 2022 vintage confirms the adaptation of our terroir, together with our organic and biodynamic approach, to future climate challenges and illustrates the greatness of warm Bordeaux vintages.
